# SHOES THAT MAKE A STATEMENT.

May we present to you, our new Business Safety collection. This stylish range is a complete change from classic safety shoes and over shoes. With style and sophistication this new range can't be distinguished from classic shoes. Complete with our new anti-slip TPU outsole, steel toe cap and STEITZ SECURA's well known comfort and well known added values, this range meets all the safety standards for the job!

Our new safety shoes in business look.

- LEATHER-INSOLE
- ST** STEEL TOE CAP Toe cap made of steel
- DGVU 191** INSOLE TREATMENT Tested according to DGVU rule 112-191

# SECURA VARIO® SYSTEM

## WEIGHT DEPENDENT HEEL CUSHIONING.

With our replaceable heel shock absorption, which is individually adapted to the weight and load of the wearer, the pressure load in the shoe can be reduced to a natural level.

The feet tire less quickly and the musculoskeletal system also experiences a noticeable relief.

Tested and recommended by the forum Gesunder Rücken - besser leben e.V. and the Federal Association of German Back Training Schools (Bundesverband deutscher Rückenschulen (BdR) e.V.). Additional information at: AGR e.V. - Stader Str. 6 - 27432 Bremervörde Tel. +49 (0)4761/92 63 580 - www.agr-ev.de

# MULTI-WIDTH SYSTEM

»NO FOOT IS AS LONG AND WIDE THAN THE OTHER«  
4 DIFFERENT WIDTHS PER SHOE SIZE.

With the unique STEITZ SECURA multi width system, STEITZ SECURA safety shoes can be individually adapted to the wearer. For almost every shoe model in our current collection, there are four different widths to choose from in every shoe size - nothing stands in the way of the perfect fit of the shoe.

# LEATHER-INSOLE

## CLIMATE CONTROL FOR PERFECTLY TEMPERED FEET.

The heart of the STEITZ SECURA foot climate technology is the leather insole on the inside. It consists of vegetable-tanned leather and adapts to the foot individually. With its skin-friendly pH value, it supports climate comfort. It not only stores the moisture in the shoe, but is also able to release this moisture to the outside very quickly at the end of the shift. So you always feel comfortable in your shoe. Without heat build-up. Without sweating. Simply: great climate.
